Accessing Odyssey File & Serve

All Vermont Courts have adopted universal eFiling in all dockets through the Odyssey File & Serve (OFS) system, which is a web-based platform accessible from any modern browser on a computer or mobile device. OFS can be accessed via a link on the Vermont Judiciary’s website’s eFiling page at <https://www.vermontjudiciary.org/about-vermont-judiciary/electronic-access/electronic-filing> or directly at:<https://vermont.tylerhost.net/ofsweb>

Registration

Registration for eFiling is free and simple. All that is required is a valid email address. There are different registration options for firm/organizational users and independent users such as self-represented litigants. Instructions on how to register are found in the user guides and other materials in the “self-help” section of the OFS homepage.

Note: all users including attorneys and self-represented litigants who choose to efile must self-register. Courtstaff cannot complete registrations on behalf of filers or edit any user’s registration information.

Training and Support

- For general information and questions about use of the e filing system, on the OFS homepage <https://vermont.tylerhost.net/ofswb> there is a “self help” section with numerous resources:
 - Live web training sessions and recorded trainings that can be viewed any time
 - A Database of FAQs
 - Chat, messaging and other contact options for support
 - Training videos
 - Downloadable user guides
- Vermont-specific guides about filing in various division and case types are on the Judiciary website’s e filing page <https://www.vermontjudiciary.org/about-vermont-judiciary/electronic-access/electronic-filing>, also accessible here from the homepage:

- There is also a Judiciary e filing helpdesk for Vermont-specific e filing procedural questions at JUD.EFileSupport@vermont.gov *Please use this email for e filing questions and do not send e filing questions to the main Judiciary Helpdesk email.*

Using Templates

Users may create templates for particular common filing types where any non-case specific codes and fields of data may be prefilled and saved, to increase efficiency when making a filing of that type. Below is a summary of the steps involved but see Ch. 8 of the Tyler Firm User Guide for detailed information about creating and using templates.

Creating A Template

1. Select Use a Template
2. Choose New Template
3. New Template dialogue opens
4. Complete as much information in each section as applicable – See Section 3 re: Filings
5. Save changes after each section
 - a. Fees – Payment Account – Select Waiver
6. Continue when all information you want to put in the template is complete
7. The template will load and show all information you entered, if all is ok Save Template
8. To file using a template, select “Use a Template” from the Filer Dashboard:

New Filing

Filing into Existing Cases

All existing pending and closed cases that were in the old case management system (VTADS) will be searchable in OFS and available for making subsequent filings by clicking “File into Existing Case” from the Filer Dashboard. For these cases, use the existing docket number in its full original format (including the 4 letter county initial/docket code at the end. Use dashes and no spaces in the numbers, then a space before the letters). Some case and party types are “masked” in OFS for confidentiality reasons, meaning that names and other identifying information are not displayed to filers. These types include Juvenile, Mental Health and Relief from Abuse filings. For these types, you will need to know the county/unit and the docket/case number in order to file into it.

For very old cases (generally pre-1990) that were never in the VTADS system, they will not be searchable to file into in OFS. Any filings for such cases may/must be submitted to the court through alternative means (mail or email with clerk’s permission).

Filing Codes with “Agency Filers Only” description:

In the rare circumstances when a non-agency filer is authorized to file one of these documents (e.g. a Termination of Parental Rights Petition), they may disregard the “agency filers only” language and use that filing code anyway. There is no system setting that will prevent the court from receiving and accepting one of these filing codes from any filer. The language is included on the filing code mainly to dissuade filers from selecting it erroneously when they are not in fact authorized to file under that code.

After hours Emergency Filings

Filings submitted through OFS are generally only reviewed during the court’s business hours. Filings received after hours will be reviewed when the Court is open.

After hours filings for RFAs, Juvenile matters and other emergencies should continue to be submitted through the current/existing procedures until further notice.

eService

The eFiling system contains a “Serve” feature that allows filers to simultaneously submit documents to the court and serve them on opposing parties/counsel who are also registered in the eFiling system.

Vermont’s Rules for Electronic Filing require service of filed documents on other efilers to take place through the system unless the parties agree in writing to an alternative method. Please see the eService Guide and other related materials on the Judiciary’s eFiling page for further details on using the Serve function.

When a filing is submitted through the e filing system but is served on any parties through any alternative means (because the recipient is not an e filer or because there is an agreement between the parties), the filer must also submit a certificate of service in compliance with applicable rules.

Requesting Copies

Note: many documents in newer and active cases are available to be printed and downloaded for free from the Public Portal for users with a right of access. Most older cases that have not had recent activity continue to be held in paper files from which copies must be requested.

Regular photocopies, certified copies and exemplified copies of court documents may be requested through the e filing system by filing a request into the case from which you are requesting document copies. Requests may be submitted on their own or in conjunction with other filings.

1. Using the filing code “Copy Request”, submit a letter or document clearly stating the request including the specific documents for which you want printed copies, and whether you need a regular, certified or exemplified copy and how you would like the document(s) sent to you (mail or email). Please note that certified copies produced and delivered electronically will have a certification stamp image and signature electronically applied. For some purposes and in some other jurisdictions a raised seal and original signature is required, so requests should state clearly which method is needed.
2. To submit payment for the copies, in addition to selecting the filing code and attaching a written request, the filer must select the appropriate copy type and fee from the “Optional Services” section. There are different fees for each type of copy so be sure to select the correct option.
 - Regular printed copies of court documents cost 25 cents/page and there is a \$1.00 minimum for any copies, so if the document is 1-4 pages long the cost will be \$1.00 (select the option for “photocopies1-4”).
 - Printed copies of documents longer than 4 pages will be [# of pages X 25 cents] (select the option for “photocopies 5+” and enter the total# of pages of the document(s)).
 - Certified copies have a fee of \$5.00 per document.
 - Exemplified copies have a fee of \$10.00 per document
